OPEC pressures Saudis on oil price

GENEVA (Reuter). — Sandi Arabia came under intense pressure from fellow oil exporters yesterday to accept a sharp increase in the official price of oil in return for the restoration of orderly world market conditions...

Standing virtually alone at the start of the regular mid-year price-fixing meeting of the Organization of Petroleum Exporting Countries, Saudi Arabian Oil Minister Ahmed Zaki Yamani told reporters he would not accept a \$19 price tag on the stan-dard barrel of OPEC crude.

The majority of OPEC's 13 states want to fix the official price of a barrel at \$20, which they consider close to the real value of their oil on world markets. This was backed up by a study prepared by OREC economists that said orderly off market conditions would not return at a lower figure, OPEC sources

The current official price of \$14:55 a barrel is only charged by Saudi Arabia, and is far below the prices fetched by most crude oils since

Jimmy Carter appeared confident

OPEC price restrictions were lifted

three mouths ago.
At gestarday's two hour opening season, ministers outlined the views of that countries, with most pressing for a return to a mandatory OPEC price which would restore the organisation's control over world rates, delegates said. The OPEC decision on new prices is expected to be appointed just prior to the opening of the Tokyo summit of leading industrialized countries.

indistribilized countries.
Yumani Yalled to respond, however, keeping allent through most of the morning session, they added.

Delegates said that during pre conference consultations, in which the Saudis had also remained mostly silent, en overwhelming majority emerged in favour of the 420 level, which would put the official price 38 per riest above the April 1 fixing. But many members appeared will-ing to compromise at around \$18.50 a barret which would raise prices by almost 50 per cent above levels in force six months ago.

Rismenthal said the ceilings would

bring the tight oil supply situation

into better balance with rising de-

mand and relieve some of the pressure pushing up prices. The summit among government

leaders of West Germany, France, the U.S., Britain, Japan, Italy and

tain supplies and scaring

if lowering production as a means of affecting prices were not taken too seriously by delegates, who saw them as bargaining counters few states would be willing to use. Sandi Arabia, which has always

preached price moderation within OPEC to avoid charges of undermining the world economy and to protect its huge investments in vestern states, has said it might lift its current ceiling on oil production, allowing the export of an extra one million barrels a day of crude oil. This was likely to ease the pressure that has forced prices bove \$30 in the free spot market and allowed some oil exporters to charge up to \$21 a barrel for oils similar to the OPEC marker — Saudi Arabia's

light crude. The situation in Iran, where the anti-shah revolution earlier this year led to a substantial and contin drop in oil exports, was still in secure, and the shortages that led to prices might return, delegates said.

West European leaders last week

on border security tour By JOSHUA BRILLIANT .

Jerusalem Post Reporter Egypt's Defence Minister Kamal Hassan Ali and chief of intelligence. Gen. Labib Sharab, yesterday climb-ed a hill in the Triangle to see Israel's security problems for

themselves. Agriculture Minister Ariel Sharon, their guide, pointed out Tel Aviv. Netanya and Hadera. Then he spread a map on a rock and explained that 60 per cent of Israel's population was concentrated in that narrow

Sharon suggested the tour when he met Ali in Alexandria during the meeting of the autonomy committee earlier this month. The offer was repeated on Monday and accepted. Defence Minister Ezer Weizman had placed a helicopter at Sharon's disposal, but the ministers went by car, accompanied by police.

Leaving the Accadia hotel in Herzliya at 8.30 a.m., they drove to Ra'anana, and then almost all the way to the former border, through an area of continuous settlement. Passing through Tira, the Egyptians were said to have been impressed with the Arab villagers modern houses and agricultural

Then they climbed a hill near Taur Natan and street S war describe the topographical features of the area. With the help of maps, he explained his concept of Jewish settlement in Judea and Samaria.

or barbed wire in this area under the proposed autonomy plan, the de fac-to borders will be the boundaries between Jewish and Arab settlements, he told his guests, going on to show them how Arab homes and cultivated lands border Kfar Hess and Kfar Yavetz, making the Jewish-controlled coastal strip only nine km. wide. Sharon's plan to settle Jews in thinly populated areas of Samaria is designed to change the region's exclusively Arab character. Sharon sharpened the picture of

Israel's security problems by taking his guests to a site near Kibbutz Nir Elivahu where they could see how close Kalkilya (in the West Bank) is to Kiar Sava. Sharon said later he thought the Egyptians were struck by the proximity, even if they did not necessarily subscribe to Israel's solutions of Jewish settlement in

Returning to the Accadia hotel in time for the 10.30 a.m. session, Ali told a reporter, "I got an idea of the ground just west of the green line. We'll have more discussions

But Sharon was not dismayed. It is important that Ali, who has considerable military experience, sees the problems for himself, he said." It my cris 12 to present the factor forrectly from the start," Sharon told The Jerusalem Post adding that it was a very good basis for continuing

Four killed in Arad bus accident

BEERSHEBA (Itim). — Two men and two women were killed when a bus went off the road and fell into a ravine near Arad early yesterday.

The dead are Ze'ev Freed, the bus driver, and Amos Yona, 34, both of Arad. The names of the women victims have not been released.

The accident took place at 6:30 a.m., when the bus left the road outside the Masada Hotel and crushed to death the two women standing at the bus stop opposite the hotel. The vehicle continued on its course through the crash barriers at the side of the road and fell some 50 metres into the ravine.

Third round of autonomy talks ends cordially

Post Diplomatic Correspondent HERZLIYA. — The third round of the autonomy talks ended here yesterday in an atmosphere of extreme conviviality, but without much tangible progress. Israel and Egypt agreed to study each other's proposals on how to proceed and to present their comments and reactions at the next session, in Alexandria on July 5-6.

The Egyptian side is still pressing for a talks agenda that would express the broad political objectives of the autonomy. Israel, chary of get-ting into political-ideological disputes, is suggesting instead that the negotiators move straight into the practical issues of creating the "selfgoverning authority (administrative

Israeli negotiators felt after the meeting yesterday that the Egyptian side would be prepared to begin practical discussions at the forthcoming sessions, even before concluding a declarative agenda. And Egyptian spokesman Ezzat Abdel Latif seemed to confirm this reading when he told The Jerusalem Post that Egypt was not making the conclusion of the agenda a condition for beginning the practical talks. He

both planes simultanėčusių.

Some Israelis predicted the Egyptians would eventually be prepared to forgo a declarative agenda altogether, but this was not the unanimous view of the Israeli delega-

Both sides are now awaiting expectantly the advent of the American special negotiator, Robert Strauss, who will take part in the Alexandria meeting. Egypt's chief of delegation, Premier Mustapha Khalil, said yesterday he would "welcome" efforts by Strauss to "push" the talks along at a faster

U.S. sources cautioned that Strauss's first visit would merely be in the nature of a "getting acquainted trip." But Israeli negotiators seemed to agree with their Egyptian counterparts in anticipating that Strauss, who is due here at the weekend with a large party of aides, will want to show some concrete achievement even in his first sally.

Legal aides of the two teams made some tentative efforts overnight and early yesterday to formulate an agreed declarative agenda, but they (Continued on page 2, col. 2)

Dayan finds his voice for Ghali

Egyptian Minister of State for Foreign Affairs Butros Ghali yesterday visited recuperating Foreign Minister Moshe Dayan who un-derwent an operation for the removal of a non-malignant in-testinal polyp earlier this week.

Greeted by Dayan's wife Rahel, Ghali strode into the hospital bedroom and extended his hand toward Dayan. He said: "Moshe, first you give me an appointment and then you get into bed."

Dayan, apparently unable to speak well because of post-operative effects, pointed to his throat. Then in a hoarse, quiet voice, the foreign minister said: "I cannot speak, but it doesn't matter, for in my country

they have heard plenty from me."
Mrs. Dayan thanked Ghall and his wife, who sent flowers to Dayan. Ghali later said that Dayan told him he was feeling fine and would soon be back at work.

Doctors at the Sheba medical cen-tre said that Dayan would need 10 days of rest at home before he could resume his workday pace.

Ghali discussed ways of speeding up the normalization process between Israel and Egypt during a meeting with Foreign Ministry Director-General Yosef Clechanover at the Accadia Hotel in Herzliva vesterday morning.

The two men, who met over breakfast, laid special stress on the need to enable citizens of the two countries to cross the border.

Assad brother said hurt in assassination attempt

BEIRUT (UPI). - Two Lebanese newspapers said yesterday that Syrian President Hafez Assad's brother had been wounded in an assassination attempt and transported to a European hospital for treatment.

ere has been ne mention in he attempt in Syria's state-controlled media, however. The newspapers "Al-Amal" and

"Al-Ahrar" of the Christian Phalangist and National Liberal ·Parties said Lt. Col. Rifast Assad. the commander of a Syrian army ecial unit, was wounded when a bomb exploded near his house in suburban Damascus. They said the exlosive charge consisted of "about 100 kilos of TNT."

The newspapers said the president's brother was flown to a European hospital yesterday for

medical treatment. They said an announced postponement of Assad's scheduled visit to Moscow this week was "because of the assassination attempt against his brother." An official statement broadcast by

Damascus Radio on Monday reported the postponement, but gave no explanation for the move, which so came as investigations continued into the massacre of over 30 Syrian army cadeta in Aleppo. Some reports put the number of dead at twice the official toll.

The authorities have blamed the banned Moslem Brotherhood, an Islamic extremist group, for the MESSOCTA

The leftist Beirnt daily, "As-Safir" said 18 people had been sentenced to death for taking part in the massacre and the sentences would be carried out by hanging within 48 hours. Earlier reports said up to 300 people had been arrested in connection with the Aleppo killings and that a dozen were condemned to death in

Nablus mayor to be tried for holding illegal protest

orders that would make home-grown

their behalf and persuade the

government to solve the problem.

Representatives of the farmers' organizations said last night that they are no longer interested in promises from the Knesset Finance Committee. They now want an explicit commitment from Finance Minister Simha Ehrlich to issue poultry cheaper in comparison with the imported beef. They want this commitment before next Sunday, when the committee is due to meet again to consider their grievances.

Farmers' sanctions on produce

seen postponed until tomorrow

Most of the efforts being made yesterday evening to avert the sanctions were at the initiative of members of the committee, notably MK Yigal Cohen-Orgad.

Simha Assaf, director-general of the Histadrut Agricultural Centre, said yesterday that Cohen-Orgad had asked him to stop the farmers'

sanctions and to see whether an agreement could be reached. Assaf said that the head of the centre's economic division, Yehuda Sa'adi. had gone to Jerusalem to meet Cohen-Orgad and that the results of the meeting would be considered this

One compromise proposed by the Treasury on Monday was that instead of removing the subsidy on imported beef, which would result in its price rising by IL23 per kilo, an extra subsidy of IL10 per kilo should be put on home-produced chickens. This measure, if adopted, will bring down by 25 per cent the price of chickens and will cost the government IL60m. a month. According to Dan Yarden of the Treasury's budget division, the beef subsidy cost the Treasury IL250m. during the first three months of this year. Yarden said this IL250m. was not accounted for in the

quickly found that some of the gaps

were too wide to be bridged without a

tough and arduous process of give-

Instead, therefore, the talks wound up with a brief joint statement to the press which recorded the difference

of approach between the two sides.

Prime Minister Khalil, introduced the position of the Egyptian govern-

ment concerning the bases and ob-

jectives of the process and the future work based on the Camp David

"The delegation of Israel, led by

Minister Yosef Burg, put forward its

suggestions dealing with the prac-tical ways and means to advance the

negotiations.... A thorough and detailed discussion took place...."

Premier Khalil told a news con-

ference that he hoped to see the agenda concluded at Alexandria, or

Framework and the Joint Letter.

.The delegation of Egypt, led by

suburb into the heart of the city.

The cafe denizens of Rehov

mitted in the opening stages of the Litani operation when the IDF crossed into south Lebanon in March 1978. The military appeals court which adjusted it to eight years consisted of five judges headed by Supreme Court Justice Meir Shamgar.

In his letter Sarid writes that the intervention of the chief of staff in the judicial system and its tolerated. "Eitan's cutting of the sentence displays contempt towards the court and insults the judges." Hirsh Goodman adds:

The chief of staff has come under fire over the past few days on two counts relating to this specific inci-dent — his persistent abuse of due judicial process within the military, and a similar abuse of the censorship

In regard to the latter, it is felt that there was no evident security reason for the censor's decision to ban publication of the sentence reduc-

the first time in many years that I've been walking here." And Khalil quipped back, "I'm not surprised,

your ministers do a lot of driving.

The officials were quickly

recognized by the cafe residents and

other Dizengoff strollers, who immediately began following the

visitors, shouting out welcomes. One drinker shouted, "Look, it's the

shah!" and when Burg translated for

The spontaneous welcome by the midnight Dizengoffers soon turned

into a traffic jam, and when the

negotiators — who said the stroll was

a welcome relief from the day's talks

- reached Rehov Gordon, security

Later, one of the Egyptian

diplomats was overheard telling his

Israeli counterpart, "Maybe we'll

advance the normalization so we can

come here more often to see the

at least at the meeting after that, in Herzliya on August 5-6 "so that our

statements will contain more sub-

stance than the present one." The

U.S. acting head of delegation,

James Leonard, noted that "if we go

on a great deal longer (without con-

cluding the agenda) we won't be so

But both Khalil and Leonard join-

ed with Burg in asserting repeatedly that for the present they were

perfectly satisfied with the pace and

Burg explained that the fortnightly

tempo of the talks would be broken

after Alexandria (the next meeting

will be one month later) because the

Egyptians wished to attend an OAU

meeting in Monrovia in mid-July, and the Jewish mourning period of the "nine days" and the beginning of

the Moslem month of Ramadan follows immediately after that. Shortly after the Alexandria ses-

sion, President Sadat and Premier Begin will hold a summit meeting,

also at Alexandria. Sadat has said

publicly that he expects that meeting

to give a boost to the autonomy talks

In a television interview last night, Khalil denied that the parties were

interested in deliberately slowing

the pace. But some Israeli sources said they had the impression that

Egypt was not anxious to get into detailed discussions until after the

Egyptian participants had warm

words yesterday for Dr. Burg's handling of the meetings, and for the

relationship he is building up with

Khalil and Minister of State Butros

Ghali. "There really is a

breakthrough on the personal level."

Prime Minister Begin telephoned

Premier Khalil at midday yesterday

from Ma'alot, where he was visiting

as part of a tour of the Galilee. "

thanked him for his call and for his

greetings," Khalil told the press. "It

beautiful women."

THIRD ROUND OF TALKS

This is the second time that the chief of staff, who has displayed extremely high standards in regard to discipline in the army (including stiff sentences for breaches), has shown extreme laxity in cases in-volving court decisions on the behaviour of soldiers.

The first instance involved civil guardsman Yisrael Lederman, sentenced in December 1978 to 20 years for murdering an East Jerusalem man the day after terrorists killed a fellow civil guardsman at the same spot. The military appeals court cut Lederman's sentence to 10 years, but in April Eltan unilaterally reduced it to three years.

In the present case, which involved an officer early in the Litani operation, the chief of staff again cut e sentence despite the carrying out of due judicial process and the deci-sion of the appeal court. As a result of the reduction, the officer has only a few months remaining of his sentence to serve

Egyptians take midnight Dizengoff stroll 'Ha'olam Hazeh' to go on trial for party of dignitaries, escorted by a host of security men, began their stroll. Burg told his guests, "This is

The state has filed a criminal complaint against "Ha'olam Hazeh" on a charge of inciting the armed forces to rebellion. This was revealed in the Knesset yesterday by the editor of the weekly, Uri Avnery (Sheli).

Speaking on a bill to amend the Courts Law, Avnery said that the grounds for the complaint, which was filed this week, was a reader's letter published in the magazine. In the letter a reserve soldier wrote that reservists find themselves in a conflict with their conscience when they are required to serve in the "oc-

Egypt's agriculture minister to visit

Jerusalen Post Reporte Agriculture Minister Ariel Sharon

yesterday formally invited his Egyptian counterpart, Dr. Mahmoud Mohammed Daoud to visit Israel. The letter of invitation was handed to Minister of State for Foreign Affairs Butros Ghali. Daoud had

accepted an oral invitation extended on May 27 when President Anwar Sadat visited Beersheba. Ghali told Sharon he expected the visit would take place in a few

No date has been set for Sharon's visit to Egypt. Sharon expects to remain there after a future meeting of the autonomy committee. Details will be discussed first with Prime Minister Menahem Begin and then with the Egyptians.

NABLUS MAYOR

The march and subsequent meeting were expressly forbidden to Shaka the evening before by the military governor of the town. The mayor was warned that action would be taken against him if there were trouble.

Observers noted at the time that Shaka tried his best to exercise a restraining influence on the demonstrators and personally intervened to stop youngsters from throwing stones at soldiers. He called for a struggle that was "logical, organized and wise," and warned that any spontaneous activity would end in failure.

It was noted last night however, that Shaka had consistently ignored standing orders banning political meetings and demonstrations on the West Bank. In March he was one of a group of Arab mayors who tried to take food into Halhoul which was under curfew. And he was the only West Bank mayor to attend a recent meeting at the Arab Graduate Club in East Jerusalem, called to discuss the continued closure of a number of

West Bank schools and colleges. One important aspect of putting Shaka on tra trial is that if found guilty of an offence deemed a "disgrace" under Jordanian law, he could be considered disqualified from holding the post of mayor. This happened last year to the mayor of Beit Jala, who was convicted of such an offence and subsequently lost his

But observers noted last night that it would not be easy to prove Shaka was guilty of such a crime. They also expressed concern that a prolonged trial might well turn into an opportunity for more disorder and demonstrations of the kind the military government hoped to pre-

vent on the West Bank, A spokesman for the military government last night declined to elaborate on the imminent trial.

'inciting rebellion' BEIRUT (Reuter). — Lebanon's

Christian militias have called for the . withdrawal of the 30,000-strong Syrian security force from the coun-

A statement issued on Monday by the mainly-Christian forces lead by

Pierre Jemayel and Camille Chamoun said they opposed any extension of the current mandate, which expires tomorrow. The Arab League is due to con-

sider a request from the Lebanese' government for renewing the man-

into open warfare in Christian districts of Beirut in July and October last year.

Bornstein denied that Tempo

bottles were more liable to explode

than any others. "Numerically,

there have been more incidents of

our bottles exploding, but this is

because we lead in the soft drinks market," he said, pointing out that all soft drinks bottles in Israel were

Figures produced yesterday by the

bottles.

The Syrian force, which intervened to halt the Lebanese civil war in

November, 1976, originally was part of a force that also included small units from other Arab League states, but these detachments have since withdrawn.

BOTTLE BOYCOTT CALL

caused by use and handling.

"Cartons of bottled beverages are not handled with kid gloves. They are loaded onto trucks then unloaded, and not exactly with tender care. They are more often hurled to the ground, and microscopic, invisible cracks develop. Then there comes a time when the gas-charged beverage overcomes the resistance of this weakened section of the bottle, and an explosion results."

A spokesman for the Ministry of Industry, Trade and Tourism told The Post that soft drink bottles here are used about 30 times before being discarded.

Police scientists collected the pieces of glass from the bottle that caused Haliba's death, to try to determine what caused the bottle to explode. A police spokesman told The Post that it was not yet clear whether the bottle had burst because of the pressure of the gas in it, or whether Haliba had dropped or jolted it. He said that a decision on whether to prosecute the Tempo firm would be taken only after the inquiry was completed

Moshe Bornstein, general manager of Tempo, told reporters yesterday that this was a "difficult and tragic day for the Israeli soft drinks industry. We have heard of such cases before." He said that in the U.S. in 1977 there were 155,000 reports of soft drinks bottles ex-

Bornstein announced that Tempo had acquired the rights for a new type of laminated glass to be used in the manufacture of soft drinks "If these new bottles are smashed,

the glass will not fly about in all directions," he said. The new laminated bottle was introduced in Israel some three months ago, and should have replaced the old type of bottle within another three months in all Tempo drinks, Bornstein

Peace means long life

SAFAD (Itim). - "The meaning of peace is long life for our sons and daughters, as God intended for them," President Yitzhak Navon said here yesterday at the opening of the Flora Tamman religious comprehensive high school. The school is dedicated to the memory of the 22 children murdered by terrorists at Ma'alot in June 1974.

Correction

The Finnish embassy informs us that the report in The Jerusalem post of Friday, June 22, stating that the Finnish ambassador had sent a statement of support to the Israeli Women's Committee for Ida Nudel, is incorrect.

The report referred to a demonstration on behalf of Ida Nudel held outside the Finnish embassy, which represents the Soviet Union in Israel, on June 21 organized by the committee (IWIN).

The demonstrators presented the ambassador with a letter requesting Nudel's release. The report added that the ambassador later sent a statement of support to IWIN, which the embassy yesterday firmly

who took care of a Jewish child whose parents were deported to a concentration camp during World War II will receive Yad Vashem's highest award on Friday. When Holland's Jews were

deported in 1943, Prof. Werner Weinberg left his daughter, Suzanne, then aged one and a half, with Jan and Johanna van Heeckeren. The van Heeckerens had five children of their own, all blond, and Suzanne's dark colouring made it likely that she would be identified as Jewish.

The family was active in the anti-Nazi underground and smuggled Jewish families into Switzerland. When the family split up under pressure from the German occupation authorities, the father, an engineer took Suzanne with him into hiding.

The Weinberg family were deported to Bergen-Belsen, but all returned at the end of the war. The van Heeckerens learned of the survival of Suzanne's parents when the list of those who came back was published in Holland.

The van Heeckeren and Weinberg families now live in the U.S. and are still close friends. At 11 a.m. Friday, Jan and Johanna van Heeckeren will receive Yad Vashem's highest award and will plant a tree in the Avenue of Righteous Gentiles.

MKs fear black market if foreign workers tax-exempted

Knesset decision on Flatto's

immunity stalled until fall

Knesset members yesterday expressed apprehension that granting tax and customs exemption to foreign workers who will be building the Negev airfields would create a massive black market and undermine public morality.

They were speaking in the debate on a bill presented by Deputy Finance Minister Yehezkel Flomin, entitled "Tax Exemption Law (Agreement to Build Airfields)."
The bill passed its first reading, and was referred to the Finance

Committee by a vote of 23-14.
Flomin anticipated the fear that the exemption might lead to smuggling and a black market. In his opening remarks, Flomin

promised that the Treasury would take all steps necessary to prevent abuse of the exemption. U.S. authorities have promised full cooperation in this matter, he said. In the Camp David agreements, Israel undertook to exempt from various taxes the U.S. government and its workers who were employed in the implementations of the agree-

give the agreement legal validity. Employees of contractors will be exempt from duties on the import of goods for their own homes on personal property. U.S. government employees will, in addition, enjoy the same exemption from income tax and indirect taxes as its granted to employees of the U.S. embassy and consulates.

Galilee Arab leaders claim land theft ly critical of the Jewish Agency's

By Joshua Brilliant

erusalem Post Reporter

TEL AVIV. — A group of local Arab notables charged yesterday that the government was trying to rob Galilee Arabs of their land under the pretext of developing the area. Attorney Mohammed Miarl of Haifa told a press conference that Arabs, who comprise 48 per cent of Galilee's population, own 300,000 of the 3,500,000 dunams there. "Isn't there enough state-owned land for development? Must the government

seize Arab land?" he aaked. Elias Layous, chairman of the Mi'ilya Local Council, his colleague Yusuf Nimr Murkos, and the chairman of the National Committee for the Defence of Arab Owned Lands, Shehadeh Shehadeh were particular-

Muzorewa's black-led gov't off to shaky start

Bishop Abel Muzorewa witnessed the formal opening yesterday of Zimbabwe-Rhodesia's first blackdominated parliament with a boycott by one party and a rebellion in his own party...

Only five hours before the ceremony, helicopter-borne troops backed by warplanes struck in Lusaka, Zambia, hitting what was believed to be the intelligence headquarters of guerrilla leader Joshua Ñkomo.

Nkomo and Mozambique-based guerrilla chief Robert Mugabe reject the 26-day-old government of Muzorewa and have vowed to topple

The first black-led government is already split and weakened by the breakaway of seven members from Muzorewa's United African National Council (UANC) and a boycott of 12 of the seats by Ndabaningi Sithole's Zimbabwe African National Union

The rebellion and the boycott mean Muzorewa will head a government without the two-seat majority he held with his 51 elected members. Assuming that the 12 ZANU members continue their boycott, Muzorewa will need all 44 votes from his party and one vote from an opposition member to pass legislation. Muzorewa took his seat in the assembly surrounded by the seven

UANC rebels led by his former vice-

day between farmers and agents of the shah, aided by "counter-

dasht, Mahabad and Piranshahr near the Iraqi border, the radio said in the first report of the incident.

It indicated the most serious clashes took place in Sardasht and Piranshahr, where the fighting resulted in the death of nine people from the rival groups. Five of the deaths occurred in Sardasht, the radio said without elaborating. Sardasht was among border areas bombed and strafed by Iraqi air force lets earlier this month in the wake of Kurdish unrest and growing recrimination between Iran and

Yesterday's reports did not elaborate on the causes of the clashes, except saying the farmers in the area had objected to activities of the counter-revolutionary elements.

But unrest was reported brewing in the area after protests against the new Iranian constitution, introduced by the revolutionary government. Kurdish leaders complained the constitution, still to be approved by an assembly, did not give sufficient guarantees for their minority rights. Protests against the constitution shut down another Kurdish town,

Saggez, on Monday, last reports said. More than 5,000 residents of Saggez demonstrated at the main mosque and issued a five-point protest against the constitution. The resolution said the Kurds were opposed to an article which declared Iran. The Kurds, said to number

between 3.5 and 4 million, are Sumi Moslems and one of four major non-Shi'ite ethnic minorities in the country. The others are Arabs, Turkomans and Baluchia. Ayatollah Khomeini, in remarks published yesterday, dealt another blow to opponents of his Islamic

regime and urged political groups to merge together. He said his movement, which overthrew the shah, had brought all Iranian groups together on one platform.

Sadat asked to rethink invitation to shah

CAIRO (Reuter). - Egypt's main opposition party newspaper yester-day called on President Anwar Sadat to reconsider granting asylum to the shah of Iran in Egypt.

The weekly newspaper "Al-Sha'ab," organ of the Socialist Labour Party, said the move would further damage relations between Egypt and Iran and add to the country's security burden.

Ibrahim Shukri, the SLP leader, whose party has 34 seats in the 392member parliament, said in the newspaper the decision to give refuge to the shah could have "grave effects on relations between us and the Iranian people and their

dislodge entrenched guerrillas. Sandinista radio communications indicated the rebels were considering setting up a provisional government in Leon, Nicaragua's second largest city.

But some regional commanders worried that Guard air superiority could endanger their five-member 'Government of National

Reconstruction" if it moved from its current haven across the border in

The Sandinistas' plan to set up a capital in Rivas appeared to have en scrapped for now, because the offensive to capture the sourthern city has stalled.

Besides Leon, Sandinistas on Monday held Masaya, Matagalpa, Diriamba, a dozen northern towns along the Honduras border, and a five-km. strip along the Sapoa-Penas Blancas line between the Pacific Ocean and Lake Nicaragua, just north of the Costa Rican border.

Brazil on Monday broke diplomatic and commercial relations with Somoza's government; joining Mexico, Costa Rica, Panama, Ecuador and Grenada, all members of the Organization of American States. Peru's foreign minister said on Monday his country was seriously considering breaking relations with Somoza, and that he knew of other Latin American nations considering the same thing, though he did not name them.

The five members of the Sandinistas' provisional "Government of National Reconstruction" are due to arrive in Panama City today on their first official state visit. A presidential press release published on Monday said the provisional government, appointed on June 16, had been invited by President Aristides Royo. (UPI, AP)

'Jack the Ripper' taunts British police with tape

WAKEFIELD, England (UPI). — "I'm not quite sure when I will Police yesterday released" a sneer- strike again but it will be definitely ing, taunting tape recording by the "Yorkshire Ripper" in which the his 12th victim — a prostitute, like most of the others — and boasted, "I should be in the Book of Records."

Assistant chief constable George Oldfield, who has masterminded the hunt for the killer for almost four years, appealed for public help in recognizing the voice. "Someone, somewhere, must know this man," he said.

The killer, Oldfield theorizes, is from near the northeast port of Sunderland. He is aged 80 to 50 and is 'strong, mad and clever." He is England's most vicious mass murderer since Jack the Ripper terrorized the gaslit London of the 1880s, killing and mutilating at least six prostitutes. The killer has already claimed 11 victims since October 1975. He stabs and slashes all his victims, reportedly hideously mutilating their bodies.

Nine were prostitutes and police theorize he mistook the other two both women of good repute — for prostitutes as well.

"I believe we have now got the break we have been waiting for," Oldfield said as he played the cassette at West Yorkshire police headquarters.

In the brief tape, addressed to Oldfield, the sneering voice says, "I'm Jack (the ripper). I see you are still having no luck catching me.

"I have the greatest respect for you, George, but Lord, you are no nearer catching me now than four military manoeuvres of the Saudi

Ghana purge claims six top officers

ACCRA (Reuter). — Two former heads of state — Gen. Fred Akuffo and Gen. Akwasi Afrifa — were publicly executed by firing squad yesterday as Ghana's new military rulers continued their purge of former leaders.

Four other senior officers were also executed.

Gen. Akuffo was overthrown by junior officers three weeks ago. His predecessor as head of state. Gen. Ignatius Acheampong, was executed by firing squad on June 16. Gen. Akwasi Afrifa was head of

lead the coup that overthrew Kwame Nkrumah in 1966. The executions yesterday took place at the Teshie military firing range. Large crowds had gathered,

state in the 1960's after helping to

but were kept about 300 metres back from the execution ground. Ghana's new rulers, led by Flight Lt. Jerry Rawlings, took power earlier this month as the country

prepared for elections to return to civilian rule. The elections were held on schedule on June 18, although a se-cond round vote for the presidency is

still to come.

The Armed Forces Revolutionary Council has vowed that it will hand over power to the elected govern-ment after it has purged public life of

corrupt leaders. Altogether, eight top officerpoliticians have been executed after being found guilty by special military courts.

The former leaders were accused of economic sabotage, the abuse of power to amass wealth and the misspending of state funds.

Lule supporters cripple Kampala

KAMPALA (AP). - Anti-government strikes crippled the Ugandan capital for the second day yesterday as tribal supporters of ousted president Yusufu Lule maintained pressure against the six-dayold rule of President Godfrey

Most shops remained closed. Government ministries appeared heavily understaffed. Petrol stations were shut, few supplies reached the central food market and some banks did not open.

Public buses were running, but private vehicles stayed off the roads. There were no immediate, confirmed reports of violence.

Lule was removed from office a week ago in a tribal and ideological conflict that threatens national stability two months after Ugandan exile factions united to help overthrow dictator Idi Amin Policy-makers in the ruling Uganda National Liberation Front voted Lule out after complaining that he was not consulting them in making eabinet appointments. .. ISRAEL CONSUMERS COUNCIL

Carter seeking 'specific proposal' on Asian refugees

TOKYO (AP). — U.S. President Jimmy Carter said yesterday he expects the seven-nation economic summit here to produce a specific plan for easing the plight of Indochinese refugees.

After ending pre-summit talks with Japanese leaders, Carter said he felt progress had been made on the refugee issue during two days of sessions with Prime Minister Masayoshi Ohira and advisers.

Elaborating, Carter told a group of reporters: "What we want to do, obviously, is to get the entire world to participate in the acceptance of the refugees, and the financing of the very expensive (refugee) programmes, and also to get the world to induce the Vietnamese to change their policy to cut down on the large numbers who are having to leave Vletnam.

Asked if he thought a specific proposal would emerge from the summit meeting that begins tomorrow, Carter gave a one-word answer: "Yes." Meanwhile, in New York, a

citizens' commission urged Carter to lead the world in an effort to save the refugees from their peril. The Citizens Commission on In-

dochinese Refugees cabled the president in Tokyo on Monday night, urging him to double the monthly quota of Vietnam "boat people, ethnic Chinese and Cambodian refugees to the U.S." The monthly quota

currently is 7,000. They also asked Carter to ask Congress for a ten-million dollar

emergency appropriation for the refugees' resettlement in the U.S. The commission, formed last year by a group of 14 prominent American religious and civic leaders, met Monday night to make the proposal to

Rabbi Marc Tanenbaum of the American Jewish Committee said Carter should discuss this weekend the setting up of transit camps, such as Guam and Wake Islands, as emergency safe havens to receive the refugees who are ficeing Viet. nam or being driven out of Malaysia and Thailand.

"An emergency international flotilia of ships and planes," the commission said, was needed "to salvage the lives of thousands of refugees who are being pushed out to sea by Malaysia and other coun-

76.0%

In the three months since the signing of the Israeli-Egyptian peace treaty, several key Middle East experts at the State Department have come to agree with that assessment. These officials are privately upset by the Carter Administration's reaffirmed commitment to Israel, in a March 26 U.S.-Israeli memorandum of agreement, not to recognize or negotiate with the PLO until that organization first accepts UN Security Council resolution 242, as well as Irael's right to exist. Secretary of State Cyrus Vance assured Israel that the U.S. would continue to honour that commitment, first made as part of the 1975 Sinai-II accord.

In recent weeks, however, State Department officials involved in carrying out that decision have been waging a determined bureaucratic

battle to try to move away from it. Most of the arguments have been made behind closed doors, but some manifestations have surfaced

According to well-placed U.S. officials, the controversy is expected to intensify in the coming weeks, largely because of a new aggressive PLO policy, which includes some "positive diplomacy" designed to suggest that the PLO may be inested in a peaceful resolution of

Thus, despite the U.S. commitment to Israel, there appears to be a reversion back to the early approach of the Carter Administration toward the PLO, when there was an unofficial dialogue between Washington and the PLO.

the Arab-Israeli conflict.

Using several intermediaries, the Carter Administration has sought to win PLO moderation, Specifically, administration officials urged the PLO to accept Resolution 242 so that an open dialogue could begin. But the PLO rigidly refused to do anything that might indicate recognition of Israel's right to exist. U.S. overtures largely ended after President Sadat went to Jerusalem in November 1977.

But since the signing of the peace treaty on March 26, there have been several developments suggesting that the earlier policy may once again be on the ascent. It is hard to believe that the administration could blatantly abrogate the U.S. commitment to Israel. That would be

Crown Prince Fahd

politically suicidal, especially on the eve of presidential elections. U.S.

credibility would be destroyed.

YET LOW and mid-level bureaucrats, tacitly supported by key superiors, are convinced that the U.S. erred in offering that commitment to Israel in 1975 and in reaffirming it last March. To them, the PLO is a fact of life in the Middle East. The U.S., they believe, should

Shafik El-Hout

(AP)

come to grips with it as quickly as possible.

Former secretary of state Henry Kissinger had a firm hold on the U.S. foreign policy bureaucracy when he was in charge. He made certain that lesser officials did nothing that might signal a change in U.S. policy. unless he first gave the green

That tight control over the bureaucracy has disappeared during

(N. Ben-Ami)

the two-and-a-half years of the Carter Administration. Political decisions may be made by the White House, but they are not always carried out in good faith by the State Department. As for the PLO, this has been apparent to Israeli officials and pro-Israel supporters since the signing of the peace treaty. There have been several developments causing concern: · In April, Assistant Secretary of

ing to bury his campaign promise to

State Harold Saunders and legal adviser Herbert Hansell testified before a House foreign affairs subcommittee. Answering questions from Rep. Paul Findley (Rep. Illinois), probably the most ardent PLO advocate in Congress since Sen. James Abourezk retired, Hansell and Saunders said that the U.S. could "legally" have contacts with the PLO under the terms of the 1975 U.S.-Israeli memorandum of agreement. That document said the U.S. could not 'recognize or negotiate' with the PLO. It did not say anything about "communicating" with the PLO, according to the two State Department officials. Their testimony disturbed several pro-

Around the same time, the State Department granted an entry visa to Shafik El-Hout, the director at several U.S. universities. The decision was a clear signal to the PLO that Washington was interested in maintaining a dialogue — if only the PLO would respond with some moderation.

Israel members of the panel.

While El-Hout was in Washington he attended a reception hosted by the Syrian embassy on the occasion of Svria's independence day, Saunders and William Quandt, then the Middle East staffer on the National Security Council, attended the reception, u ing President Carter's polite handshake with a PLO official at a UN reception two years ago as a

precedent. Saunders and Quandt shook hands and chatted briefly with El-Hout.

· Another PLO man, Sayeed Kamel, the head of the Cairo office. indicated that he too wanted to enter the U.S. in May. But after State Department officials floated the idea with a few congressmen, word of the visit leaked to the press. There was an uproar, and the visa application

was quietly withdrawn. All this, of course, followed President Carter's assertion during an interview with Egyptian television at the time of the treaty signing that the U.S. would "immediately" begin dealing with the PLO if that organization would just meet America's minimal conditions.

But the PLO has not yet responded to these U.S. signals. Some State Department officials aré encouraged by the PLO's indirect statements, such as those given by Yasser Arafat to Rep. Findley in Beirut. They are not enough, however, to justify a public shift in the U.S. stance. But flirting with the PLO goes on.

There is a strong bellef in the State can eventually be brought around to accept the U.S.-sponsored peace process and the autonomy negotiations, the progress already achieved may be in jeopardy. The PLO's internal weakness and ideological rigidity, however, will probably continue to prevent that organization from meeting 'America's conditions, at least in the

Meanwhile, key officials here want to continue their campaign to try to strengthen the "moderates" within

near future.

THE DEVELOPED WORLD has too few babies and the developing world has too many old people, a United Nations official has reported. Rafael M. Salas, executive direc-

tor of the UN Fund for Population Activities, declared in a report, "The State of World Population - 1979." that trends toward lower birth rates and longer lives were found in both the industrialized and Third World

Salas, a Filipino, gave his survey of the world population situation to the governing council of the UN development programme as he sought approval for the fund's budget and programme for the coming year. He said declining birth rates are

"the most serious population problem of the more developed parts of the world," where there is "a tendency for family size to drop below replacement levels.".

Some industrialized countries, evidently in the interest of main-

taining their nationall power and

their labour force, are now urging people to have more children. Salas said fewer babies were a blessing for less developed countries. "Their burdens from previously high rates of reproduction have just begun to be reduced."

On the other hand, he said, the Third World was particularly hard hit by increasing numbers of old people in need of food, clothing and care. In that group of countries, he said, it was "likely to place intolerably heavy burdens" on an already overburdened working population.

countries with their population problems by, for example, gathering statistics and supporting birthcontrol programme

In his report, Salas characterised a third current population problem as "a world of exploding cities."

Latest UN estimates, he said, suggest that the world's urban population "has doubled since the middie of the century and may well double again before the century is over and that "the urban population in the less-developed areas will be about twice that in the developed."

"These are phenomenally rapid trends by any historic standard." he THE ELIND, supported by \$100m, a trends by any historic standard. he year in voluntary contributions from observed, "and are bound to have governments, helps: developing, radioal to revolutionary implications for national economic and ocial structures."

He said the decrease in childbearing in developing countries was no reason to cut family-planning programmes in those countries.
"It would be a grave error of

judgement," Salas said, "to make the tempting leap from pessimism to optimism, and suppose that the population problem has been solved.

"The rate of decline in fertility projected over the two remaining decades of the millennium will not prevent the world's population from increasing by nearly two billion who must inhabit a world whose economic balance is already distorted by worsening poverty for most and affluence for a few."

UN STATISTICIANS have projected the population of the world to reach 6.2 billion by the year 2,000, compared with 3.61 billion in 1970 and anestimated 4.2 billion in mid-1978.

Soviet suspicion

By MARK FRANKLAND/Moscow

signed between Israel and Egypt will, ideally, be a first step towards an overall settlement that will solve the outstanding problems of the West Bank, the Golan Heights and the Palestinians. They simply do not believe things will work out that way — and they doubt whether the Americans want them to.

They argue that it is most unlikely

suspect that the Americans have the that Israel will be encouraged to be vorst of motives for going back on more moderate in the future after signing a peace treaty with Egypt. And they suspect that the U.S. abanthe 1977 communique.

The Russians are well aware of the American argument that the peace doned the joint Soviet-American ap-

proach because it saw a chance of making gains for itself in the Middle East through the Israel/Egypt pact. "There is also," said one Russian, "the question of a growing American military presence in the Middle East. This is still only a tendency, not something that's happening rapidly. But it is aimed against the

Soviet Union."

IT IS NOT surprising, then, to find Russians taking a good deal of pleasure in the difficulties which the treaty has caused America. They anticipate President Anwar Sadat being weakened by serious social and ggravated by the halt in Arab aid. And there is particular bitterness about Sadat, who is now savagely caricatured in the Soviet press.

In fact, there is something of a contradiction between Soviet suspicion of America's motives in helping Sadat and Prime Minister Menahem Begin get together and their pleasure at the trouble this has caused among America's old Arab friends. The Russians explain this by saying that "the Americans mis-calculated."

is the major obstacle to a proper settlement. The PLO's refusal to recognize Israel, on the other hand. is not seen by Russians as an obstacle. This is because "Palestine is, in fact, ready to coexist with

THE RUSSIANS still say it would be a matter of putting the cart before the horse to set PLO recognition of Israel as a pre-condition for negotiations. "Why should the Palestinians admit Israel's rights if Israel won't admit the rights of Palestine, which does not yet even have a state?!'

recognition would make the Israelis feel more secure about negotiating, one Russian replied, "Sadat's visit to Jerusalem didn't seem to make Israelis feel more secure. In fact, it

For their part, they insist that Israel's refusal to recognize the PLO

To the suggestion that PLO made matters worse.

For all the criticism, the Middle without have to do very much. (Observer Foreign News Service) withdraw all U.S. ground troops from Korea by 1982. Carter may not actually say precisely that in public, but he is clearly bringing glad tidings to the anxious South Koreans. There are only about 80,000 U.S.

ground troops in South Korea, compared to over half a million troops in the South Korean armed forces and roughly the same number in the North Korean army. Nevertheless, there is a fixed conviction amongst almost all South Koreans that it is only the presence of the American troops that has stopped North Korea from invading them during the past They are probably right. Almost

all the U.S. ground troops in the peninsula -are-deployed in the 50 kilometres of hilly country between Seoul and the border, and the North Koreans would have to wade through them on their way to the capital. The American troops are located there for a quite simple reason: to ensure that they would be amongst the first

This provides the South Koreans with total confidence that the U.S. would have to come to their aid militarily, using anything up to and including the tactical nuclear weapons which are based in the country to help defend Seoul. By the same token, this guarantee is presumed to deter the North Koreans from any military adven-

At the time Carter made his promise to pull the American troops out, however, the South Korean government was Public Enemy Number One around Washington.
The "Koreagate" scandal, with
almost weekly revelations of official
South Korean bribes to members of the U.S. Congress, was at its height. Nobody was prepared to voice an opinion that sounded as if it might have been paid for by Seoul.

Moreover, Carter's human rights campaigning inevitably included attacks on South Korea's authoritarian political system. As Richard Holbrooke, U.S. Assistant Secretary of State for East Asian Affairs, frankly admitted on a visit to Seoul three months ago: "I think 1977-78 was as difficult a period between treaty allies as could be imagined."

But Holbrooke added that the U.S.-Korean relationship has been "on an ascending curve over the last few months," which is certainly true. And no wonder, for in mid-February Carter announced that he was suspending further U.S. troop withdrawals (only a few thousands have so far left) pending new in-telligence reports on the balance of forces in the Korean peninsula. The suspension is likely to be permanent.

THE BASIS of Carter's decision — or

More importantly, there was the question of timing. The U.S. Secul estimated to be the most critical period: the last few years in which North Korea's military superiority would give them the op-

83, on the other hand, South Korea would by then have become such a major industrial power that North Korean leader Kim Il Sung would not dare to invade it. This is the goal the South Korean regime has been working for ever

tion of launching an attack. If the

withdrawal did not begin until 1982-

since President Park seized power in 1961. At that time, the country's GNP was a tiny \$2b.; last year it was \$56b. Then South Korea was an impoverished agricultural backwater with a smaller economy than the traditionally industrial North, despite having twice the North's population. Now the South Korean GNP is four or five times bigger than the North's.

militarized state in the world outside the Middle East, spending over 20 per cent of its GNP on defence. By contrast, defence takes only around Spet cent of the South Korean SNP. but the sheer size of its economy means that South Korea is now sup-passing the North's annual defence spending in absolute terms.

This is precisely the result that President Park has been seeking in his successful economic race against the North Korsens It me within another five to seven years there will at last be a military balance between the forces of North

NATIONAL INSURANCE ALLOWANCES HAVE BEEN INCREASED Effective June 1979, National Insurance allowances have been

increased, following the increase in the index of consumer prices. The allowances concerned are: for those who receive the social-welfare supplement — retirement pension, survivor's pension, work disability pension, and pensions for the dependants of work-disability victims. Also increased are general disability pensions and alimony allowances. The allowances for June 1979 are given below (IL/month).

| Family | Retirement pension, survivor's pension, work disability pension (with social-welfare supplement); and alimony allowance | Full, general disability pension (100%) | |
|---------------------|--|--|--|
| One person | 2,390 | 2,390 | |
| Couple | 3,586 | 3,586 | |
| One person + child | 3,241 | 2,868 | |
| One person + | • | | |
| 2 children | 3,719 | 3,346 | |
| Couple + child | 4.064 | 4,064 | |
| Couple + 2 children | 4,542 | . 4,542 | |
| Widow aged 40-50 | 2.390 | - | |

Connors victor of interruped match

Evert Lloyd, Navratilova win in Wimbledon first round

seeded Chris Evert Lloyd took just 56 minutes to outplay Marita Redondo 6-4. 6-2 yesterday and qualify for the second round of the Wimbledon women's singles.

Evert Lloyd was far from her best in the first set against Redondo, a 23year-old Californian.

The former Wimbledon champion took four games in succession to race from 1-1 to 5-1 as Redondo's ambition appeared to outweigh her con-

trol.
Martina Navratilova, the defending champion, had a 4-6, 6-2, 6-1 victory over Tanya Harford, a 20-yearold South African, but not before she had been hustled and jostled into dropping the first set.

The blonde and rambunctious South African, playing the serve and volley game as if she knew the centre court like her own back yard, rushed to the net like a tigress at the slightest opportunity in that set. Navratilovs, watched anxiously by her mother Jana, who had been able to leave her native Czechoslovakia to watch the tournament as a special guest of the All England Club, took a long time to settle down and seemed abnormally slow-footed

In the second set she settled down, and the turning point came in the

vice break to go 4-2 up. Harford was finding it impossible to keep up her breathtaking attack, volleyed wildly out at the vital point, and from then on Navratilova was always firmly in

Jimmy Connors and Jean Caujolle of France, whose first round men's singles was interrupted by bad light on Monday evening with Connors leading 6-8, 6-7, 7-5, went on No. 1 court immediately after the Evert Lloyd-Redondo match to complete their match. Connors won the final game, 6-3. Ivanna Madruga of Argentina upset Britain's Sue Barker, the number 12 seed, 6-8, 4-6,

Other first-round results yesterday: Betty Stove, Netherlands, defeated Jeanne Duval, U.S.: Anne Hobbs, Britain,

Duval, U.S.; Anne Hobbs, Britain, defeated Lealey Charles, Britain; Glynis Coles, Britain, best Maries Kruger, South Africs; and Billie Jean King, U.S., beat Yvonns Vermaak, South Africa.

In men's singles play: Giles Moretto, France, defeated Carlos Cortes, Colombia; Bill Scanlon, U.S., defeated Rob Dryadale, Britain; Jonathan Smith, Britain, beat Alvin Gardiner, Australia; Pani Ramires, Mexico, best Jorge Andrew, Venezuela; Pascal Portes, France, beat Ferdie Tayzar, U.S., Stan Smith, U.S. Ferdie Taygan, U.S.; Stan Smith, U.S., defeated Dave Carter, Australia; and Colin Letcher, Australia, defeated Kim Warwick, Australia.

WET AT WIMBLEDON - American tennis player John McEnroe gets caught in a shower during his first match of the Wimbledon tournament on Monday. After first putting out a hand to gauge the rain, he decides to keep his game under wraps for a while. He later went on to defeat Terry Moor, also of the U.S.

Britain's top runner faces possible ban

LONDON (Reuter). - Steve Ovett, Britain's most talented and controversial athlete, faces a possible ban for running in the Netherlands without permission on Sunday.

Ovett, the European 1,500 metres champion, represented Britain in an international match in West Ger-many on Saturday, and ran in Nijmegen the following day without the approval of the British Amateur Athletic Board (BAAB).

BAAB secretary David Shaw said yesterday that the 23-year-old middle-distance star had not received BAAB permission to run in the Netherlands and could face disciplinary action, including a tem-porary ban.

Ovett's fiercely-independent attitude towards athletics has brought frequent brushes with officials in the past. He has also come under fire in the press recently for refusing to run for Britain in the European Cup semifinals this weekend.

If a temporary ban is imposed, it could prevent Ovett defending his IAAF Golden Mile title in Oalo on July 17, in a race in which other invited stars include Olympic champion John Walker of New Zealand.

ITA summer programme

Tennis comes to Nazareth

By JACK LEON Post Sports Reporter

NAZARETH. — The Israel Tennis Association (ITA) is including Nazareth in its regional summer training programme for the first time. Some 500 boys and girls from eight to 12 years old have already received free lessons here during the past month.

Nazareth is one of seven locations where the ITA's sixth summer programme is being held. The programme has been greatly expanded this year. The others are: Acre: Jerusalem: Kiryat Yam, near Haifa; Nahariya; Netanya; and Moshav Yesha, in the Western

A total of almost 3,000 youngsters will participate in the programme, which is being directed by the new national tennis coach, Ron Steele, with Etana Ya'ari as coordinator. It is being run with the cooperation of local authorities and the Israel Tennis Centre. The centre has also organized similar training programmes at its Ramat Hasharon and Jaffa courts.

In Nazareth, the programme is being held at the Terra Sancta boys' school, the only school here where tennis is included in the sports curriculum. With no proper facilities for the game available, four makeshift courts are set up by stringing nets across the playground whenever tennis is played.

Since May, pupils from 20 local schools have been given four one-hou group lessons by local coaches Butrus Karam, George Abuhani and Elias Jabur. Following tests conducted by Steele, about 250 of them have now been selected for a further six-week training programme. Half of these children are expected to show enough promise to be taken on for formal coaching, which will continue until next spring.

Tennia was introduced to Terra Sancta two years ago by Karam, when he assumed the post of physical education teacher there. Karam, a 26-year-old Wingate alumnus, who graduated from the institute qualified as a tennis coach, is Israel's only fully qualified Arab coach in the sport. Abuhani, 25, also a Wingate graduate, is physical education instructor at the adjacent St. Joseph girls' school. Assisting them in the summer programme is Elias Jabur, 19, who has also taken a

Despite the chronic lack of facilities, Terra Sancta has already produced a squad of 12 promising players from the older boys. Karam plans to enter a team in the ITA's league competition next year. Nazareth's YMCA, which boasts two of the town's few courts, joined the competition this season to become the first Arab club in the 101-team

tennis course at Wingate.

'Rest of the world' soccer team beats champ Argentina

BUENOS AIRES (AP). - An international squad of superstars assembled last week and led by a Brasilian, who didn't show up for practice, defeated Argentina's world hampion soccer team 2-1 here on Monday night.

Zico, who arrived from Rio & Janeiro four hours before match time, came off the bench in the cond half to set up the tying goal and score the winner for the so-called 'rest of the world' team, coached by Italy's Enzo Bearzot.

The result, before a capacitycrowd of 75,000 in River Plate stadium, spoiled Argentina's anniversary celebration of its 1978. World Soccer Cup victory in the same stadium. In 11 matches it was the team's first defeat since a 1-0 loss to Italy in the World Cup's opening

Israeli Abraham Klein, the referee in Argentina's World Cup victory match a year ago, returned in the same role on Monday night.

RIVERA. — Gianni Rivers, one of Italy's greatest post-war soccer stars, announced in Milan on Friday. that he is giving up playing. Rivera: 35, won 60 full international capa between 1982 and 1974 as an inside

TEETHING AND TEETH

A DOCTOR'S NOTEBOOK / Dr. David Samson

ONE MORNING recently I saw two young patients with rather different conditions, but both their mothers thought that perhaps there was a bcommon factor responsible for the The sector responsible the sector responsible to the sector. First Bana Shachori brought her

eight-month-old daughter Dorit to see me. The baby was having River the habit-forming sort I discussed in Kennini lihis column not long ago. Then of he Miriam Gelfer came in with Boar, also eight months, who had an national temperature coming and eince sugging for a day or two without any habvious cause. Examination of the child, in fact, revealed a mild ear inthe election, which accounted for his

What was common to both mothers was that in talking about a cossible cause for their children's ipsets, each initially asked me penether I thought that teething night be responsible. In both cases ny answer was a decisive "no." I ing abook the opportunity, however, of elling them a little about children's a lentition and teething and made some general points about dental care in youngsters.

AOST CHILDREN'S first set of teeth, the deciduous or "milk" teeth, crupt between six months and two years of rage. Having said that, I feel it is important to point out that there is a iair bit of variation about this, an exreme example being the fact that some children, about one in 2,000, are actually born with a tooth or two. Napoleon and Julius Caesar, for eximple, are said to have belonged to his group. Fortunately mothers inending to breast-feed such children and recent not give up the idea since such a 3 ooth tends to bend in the gum while he child is at the breast, and there is in to danger of being bitten.

Like many other events of hildhood, the subject of teething has accupied the minds and writings of nedical authorities at least since the ime of Hippocrates. The symptoms is testiributed to teething and the Frank speen many, we'rd and wonderful.

Intil not very long ago such complaints as fits, fevers, recurrent nose and throat infections, bronchitis, liarrhoes and many more were inter ascribed by doctors to teething. Tradition dies hard, and therefore it a perhaps not too surprising to learn "hat quite a number of these old misaken beliefs still linger on. To this lay there is still quite a bit of public nisconception about what teething an produce in a child.

To some extent it is easy to under and why this should be so since we il seek an acceptable logical exlanation for some symptom or ill-1710 Mess affecting us or someone near to s whose occurrence is not, at first om ight, understandable. Teething is : "ften therefore a convenient peg on thich to hang many childhood ilments.

In fact, teething probably roduces nothing but teeth — and , icar erhaps some transient irritability nd a temporary averagen to hard od. But that's about all.

When other not-readily ex-

plainable symptoms occur, a more satisfactory diagnosis than teething must be pursued. No treatment is usually required for teething per se although occasionally a soothing solution massaged into the gums of a particularly fretful child may prove beneficial .

WHILE ON the subject of teeth, I would like to mention a pet moan of mine. I'm often asked to examine children's throats when they are suffering from some minor injection.
Too often these days, even in relatively young toddiers. I see evidence of a potentially much more serious disease "on the way in" to the throat. I'm referring to the presence of widespread dental caries, decay stemming from eating an excessive amount of sweets. biscuits and cakes, etc. and from neglect or poor attention to dental care and hygiene — all from an early

Such early dental destruction in-evitably presages trouble in the near and distant future for the child, in the way of pain, gum infection and premature extractions, of far greater significance than the imnediate respiratory infection, which is so often the anxious parents' overriding concern at the time,

In particular, premature removal milk" teeth can affect the normal eruption, alignment and configuration of the permanent teeth. This in turn can provoke further problems when the child is older.

This is a pity, because most of the basic trouble could be prevented by encouraging sensible dietary habits in the child and explaining to him from an early age that teeth are precious, and how to look after them accordingly. This involves a routine of regular teeth (or tooth!) brushing as soon as possible, and providing the child with a toothbrush of his own as soon as he is capable of understanding its use and importance.

ideally between the ages of two and three, and the dentist will also be pleased to give advice on additional methods of minimising tooth decay and ensuring healthy teeth, such as painting the teeth with a fluoridecontaining solution or taking fluoride tablets when that chemical is deficient in the local water supply. Both these methods have been

Regular dental checks should start

shown to be of value in reducing tooth decay in children, and concerned parents will want to investigate possible value for their own youngsters.
I make it standard practice if I

neet a young child in the course of a house call to ask him to show me his toothbrush and to tell me now and when he uses it. The opportunity is taken there and then to rectify any shortcomings. This, some of you may say, is more the perogative of a dentist, but then dentists, unlike family doctors, don't make housecalls.

Dr. Samson regrets that he is unable to enter into any private cordence in connection with this column. Readers' comments, however, may be used as a basis for future articles in the series.

THANKS HADASSAH." That was the message on more than 100 T-shirts_wore by "graduates" of the new natal intensive care unit at a party this week to mark the unit's se-. cond anniversary on Mt. Scopus.

Hospital officials were surprised that over 85 per cent of all the children treated in the unit came to the party with their parents, in-

"I'M THE SAME as any other man. My wife is a woman like other women. We just happen to be blind."

The speaker is Uri Omrat, once of Iraq. The place is Ora, the handweaving workshop for the blind and handicapped in Netanya, where Uri supports his blind wife and three sighted children by creating lovely garments on an old-fashioned wooden

Uri made his way with some friends from Iraq to Israel in 1949. He eventually began to work at a weaving centre where he met a girl he had known in Iraq. Like Uri, she had been blinded by eye disease as an infant. They married and lived in a wooden hut. Today, they have a three-room apartment, one daughter at university, another in high school, and a son in the army.

Url reads and writes both Hebrew and Arabic in Braille. His wife does the family cooking. Url takes four buses daily to and from work, with the help of a cane and occasional kind people.

He is proud of his work at Ora. 'My fingers tell me it's beautiful." And he urges all blind people "to have courage to be independent, to earn their own living and live normal-

THE NAME "Ora" THE NAME "Ora" means "joyous light." It is part of the Women's League for Israel Vocational Training and Rehabilitation Centre on Rehov MacDonald in Netanya. It is a hive of activity. The blind who weave, and the handicapped who sew their produce into original folklore garments, are paid on a piece-work basis. For an average monthly wage of about IL5,000, they spend up to eight hours a day turning out kaftans, blouses, children's clothes, tablecloths and prayer shawls for sale, at low prices, to Israelis and tourists.

Ezer Weizman's wife, Reuma. presented an Ora tablecloth and napkin set to President Sadat's wife when the Defence Minister visited Cairo recently, along with Ora children's dresses for the grandchild born when Sadat visited Jerusalem. There are problems, of course. Some of the workers suffer from

backaches from long hours of hand and legwork on the primitive looms. Ora is trying to acquire semiautomatic looms which require only hand work, but each one costs over IL100.000.

"We have made three of them ourselves for half the price," explains Mrs. Dita Natzor, the new representative of the Women's League for Israel, "but we need nine

and body to come to the centre simply for vocational training," she says, "who will befriend the others and set good examples for them. Living with declarer's last six cards: their peers from good backgrounds will help immensely in the rehabilitation process, as well as teaching understanding between different levels of our society."

But girls of "good" background are not attracted to the centre because it lacks modern facilities. For this reason, a new building has gone up alongside the old, with beds for 104 girls, cheery rooms, facilities for handicapped youngsters and a "500 Clubroom" (so named for donors of \$500 each).

But there's a snag. The centre is jointly budgeted by the Women's League and the Ministry of Labour and Social Affairs, and because of budget cuts, the Ministry has been unable to provide its portion of the funds necessary to complete the

project.
"But we will somehow manage," says Mrs. Natzor. --

beside Chana, who taught history in-"These girls are wonderful material. They only need help. Russia but can't here because of Because of their experiences, they are capable of more understanding of others.

"For example, they put on an immensely moving Holocaust Memorial Day service. Although the particpants were all from Oriental backgrounds, including one Falasha, and so had no direct knowledge of the Nazis, they identified with the victims because of the misery of their own lives.

"We feel we are helping them to take their place in society. After all, they are the future of Israel."

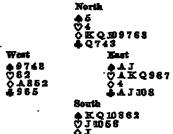

South All Pass

You lead the diamond jack, won by the ace in dummy. North plays the three and East the four. Declarer plays the A K Q of hearts and throws you in with the jack. He discards diamonds from dummy while North follows once and discards three diamonds including the king. You switch to the spade king, North plays the five, East wins with the ace and continues with the spade jack to your queen. North discards the club seven. How do you continue? Here is the picture you now have of

> Q 98 **∳**\x××

You wonder about the club ace. North probably does not have it, but if he does your side must win two club tricks. The club seven was probably meant to advise you that North held a club stopper, possibly the queen. If he has the queen, it is dangerous to lead a high spade now. You will subsequently win a trick with the club king and be forced to lead a spade to the nine in dummy. Declarer will discard a club on the spade won in dummy, and declarer will win your partner's queen through a finess

Only an unusual play will bring you victory. After winning with the spade queen you must lead a low spade to dummy's 9-7. Then, when you win a club with the king, you will have a safe exit with the high spade and your partner will win a club with his queen. Here was the full hand;

Highly recommended.

THE JEWISH ACENCY FOR ISRAEL

Mair hát. Hair and

The new

THE JEWISH AGENCY for Israel, now celebrating its 50th anniversary, and the World Zionist Organization have chosen a new logo (left) for their organizations. The logo was designed by Natan Karp, a Jerusalem graphic

The new logo is composed of folded triangles that create circular motion about the word "Zion" that appears in the centre in the form of a

From its beginnings in British Mandate times, through the years of World War Two, and Israel's turbulent 30 years of war and domestic development, The Jerusalem Post has had an international reputation for distinguished journalism.

Now, we are pleased to announce, in response to numerous requests, the publication of FRONT PAGE ISRAEL, nearly 300 front pages of The Jarusalem Post from 1932 until today. Each front page is a revealing document of its times, expressed in its headlines -- Herr Hitler new Garman Chancellor, Arabs and Jews both reject British Plan, Churchill at Helm, State of Israel is Born, Czechs to give Egypt Arms, right up to Smiling Sadat, Begin start talks.

This is the book that will be valued by every member of the family, for all time. By the children, looking at 'history.' By the student, in need of facts. By the parents saying, 'You remember that.' First edition now on sale.

SOLUTIONS TO TODAY'S PUZZLE TOMORROW

Economist reveals cure for inflation

WORLD FAMOUS economist Abba P. Lerner, who served as economic adviser to David Ben-Gurion from 1958 to 1955 and subsequently to then Finance Minister Levi Eshkol claims he has a cure for inflation. The bearded, white-haired

American professor, who established the Department of Economics at Tel Aviv University last week, opened the conference on "Development in an Inflationary World," sponsored by the University's Pinchas Sapir Centre for Development with a unique theory on fighting inflation.

It can be cured by making it too expensive to raise prices, Lerner told his audience of professors, experts and advisers to financial institutions, here and abroad.

How? By a system of credits that the Government accords to businesses on basis of their standing. which enables a firm to buy a permit to raise its prices from a firn lowering prices in exchange for another benefit. The system would be administered by the Government and prices would be free to move up and down in relation to demand.

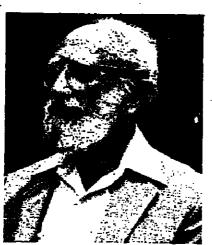

Crazy? Perhaps, the professor admits, but it might work if properly developed. Toward this end, Lerner is meeting a fellow economist in Oxford to develop the theory. However, most participants in the conference, he says, found the theory interesting but questioned its applicability to

Born in Bessarabia, and raised in London's East End, the former yeshiva student was earning his livelihood as a hat maker and studying for a high school diploma at night when teachers discovered their 26year-old student was outstanding. They obtained a scholarship for him at the London School of Economics where he later became one of the most prestigious instructors, but a scholarship to an American University influenced him to leave for what

became a permanent stay in the U.S. A colleague giving a course in mental development to help students increase their powers of concentration accepted Abba Lerner into an experiment on alertness when reading boring material. Nothing he gave him, however, even a book on bi-metalism, did the young man find other than fascinating. It was the same with anything he did, Lerner reports, even while sewing hats, he always found a new way to sew the seams around the border.

Perhaps it is this flexibility of mind that enabled him later to twist ideas this way and that, his colleagues say about him.

Now a distinguished professor at Florida State University, Lerner, 74, enchants students with his quick mind, gift for simple explanations of complex problems and readiness to listen to a controversial point of view. While at the Israel Treasury, he held daily seminars with students

Economist Abba Lerner.

at the Kaplan School to hear their views, often, he chuckles, far better than his own.

One of the most popular teachers at any university at which he has taught, Lerner has never been known to raise his voice or lose his temper. His philosophy: the moment you feel yourself getting angry, turn off, just snap the thought and think of something else.

The amiable scholar is always ready to take on an argument, even a vicious attack, and frequently ends up winning over the attacker as an ardent devotee. Several years ago, he received an angry letter from an irate student at Queens College, in New York, taking issue with a magazine article on inflation that Abba Lerner had written. From California, where he was then teaching, he wrote the student that he expected to be in New York shortly and would be glad to discuss the ideas with him. However, on arriving in New York, the absent-minded professor found he had misplaced

the student's name and address. He called up Queens College, identified himself and asked whether the secretary of the economics department would read him the names of all the students in the macroeconomics class. Hearing the inquirer was the famous economist. the secretary readily complied. When she came to the name that he recognized as that of his correspondent, Lerner asked whether he had a

class that day. "No," the secretary replied, but the student was holding a symposium. "On what?" the professor asked.

On: "A Conscientious Objection to Prof. Abba P. Lerner's Views on

Curing Inflation," "Please tell the student I will be there and would like to meet him." A long subway ride later. Abba Lerner was in Queens. When he entered the debating hall, it was packed with an overflow crowd. Evidently word had got round that the object of attack was going to be present at the sym-

and the ball of

The discussion began and Lerner, like a grandmaster at simultaneous chess games, consecutively punctured one argument after another. At the end of the debate, a greyhaired man walked up to him, in-troduced himself as the president of the university and offered Lerner a position as a visiting professor. It was a position he held at Queens and the City University (CUNY) for four

years. Lerner is always ready to participate in a meeting of the minds. Notwithstanding severe criticism. he has twice accepted invitations to take part in intellectual conferences sponsored by the Rev. Moon, who has been denounced for defecting Jewish youth from Judaism by

brainwashing them to join his cult. Lerner justifies his accepting the free trip to the conference, and honorarium because Rev. Moon states his objectives as peace, friendship and understanding. The conference, devoted to finding a union between science and religion, with sections on physical science, social science, philosophy and religion, brought together even Nobel prize winners.

A member of the prestigious National Academy of Science, which numbers 1,200 scientists, and only 200 economists, he is also President of the American Association for Rational Alternatives, a group which fights reverse discrimination in favour of ethnic minorities.

Lerner is on intimate terms with some of the great names in economics and scholarship on both continents. These include British labour leader Harold Laski. diplomat-economist John Gailbreth one of his students at the London School of Economics, and the roster of famous economists who are participating in a Festschrift in his honour, to be published at the end of the year. They include Nobel Prize winner Paul Samuelson and Milton Friedman, with whose ideas on Israel's economy he says he generally agrees.

But Lerner is proudest of the generation of economists he has trained in Israel, the most distinguished among them, Haim Ben Shachar, President of Tel Aviv University and co-author with Lerner of a book on Economic Efficiency and its Application in Israel.

Lerner keeps in touch with some of his students to exchange views. He tells of an interesting encounter that David Rockefeller, president of the Chase Manhattan Bank, had with President Sadat in 1974. Rockefeller asked Sadat what he thought of the idea of opening a branch of Chase Manhattan in Tel Aviv and also in Cairo, expecting, he confided to Abba Lerner, to be thrown out of the room. Instead, much to his surprise, the Egyptian president paused, and remarked: It's not yet time.'

Sick fund to 'collapse' without state aid

By MACABEE DEAN Jerusalem Post reporter

TEL AVIV. - Unless Kupat Holim gets an immediate and massive transfusion of promised governmental funds, the services of the sick fund which serves 80 per cent of all Israelis will collapse within one month.

"We don't see a possibility of paying our 29,000 workers - medical and service workers alike - their July salaries at the beginning of August." Professor Haim Doron, medical director of Kupat Holim, declared yesterday, adding "We simply can-not tap alternative sources of funds. The time is shortly before midnight. In one month, according to a decision taken today, the central committee of Kupat Holim will submit its collective resignation. The consequence will be that the government will be responsible for the chaos that will result".

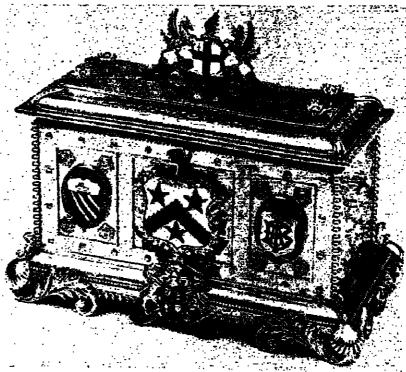

Dr. Doron went on to accuse the authorities, especially the Health Ministry, "of deliberately side-Ministry, "of deliberately side-stepping all efforts to sit down with Kupat Holim representatives and reach an agreement on the exact date when the government would hand over the funds it had

Dvora Ganini-Elad, Health Ministry spokesman, however, had a different version of why the ministry was withholding promised payments: "The Knesset has not yet approved the current budget. Kupat Holim is not the only one not receiving promised help. Also hard hit are all the government hospitals and other health organizations, such as the Hadassah Medical centre, Shaare Zedek, and others."

Dr. Doron charged that not only did the ministry owe IL700m. for the 1978/79 fiscal year on account of wage differentials which it had promised to pay, but that Kupat Holim still had not yet seen "one agora" of the IL2.5b. it had promised for the estimated IL14b. budget for 1979/80.

"Of this IL2.5b., IL1.3b. is for wage differentials which we agreed to pay at the request of the authorities on the express understanding that the ministry would find funds to cover these wage hikes"

Dr. Doron said the ministry was systematically reducing, year after year, its share in the budget of the sick fund. "Up to two years ago, the (Alignment) government used to pay 30 per cent of our budget. Last year it (the Likud) reduced this percentage to 22 per cent, and now the promised sum - which is not being paid — is down to 18 per cent".

Gold casket which was once the property of Arthur James Ballour, who lent his name to the Balfour Declaration. The 18 carat gold box is faced with the Balfour family arms, flanked by those of the city of Manchester and the Goldsmiths Company. The cover is mounted with the arms of the City of London.

Money isn't fashionable'—let them buy antiques

MONTE CARLO, Monaco (UPI). -An auction of French antique furniture which has already shattered two price records in the world of fine arts, was expected to bring in bids

totalling \$12m. by last night. Most of the 201 pieces auctioned by Sotheby's and owned by Saudi Arabian millionaire Akram Ojjeh, were being purchased by foreigners, though many of the buyers' identity remained secret, informed sources

Prices were often five times the re-auction estimates, astounding both Sotheby officials and collectors. "Money just isn't fashionable these days," one collector said Two shadowy figures, called simply Johnson and Williams, spent a fortune of \$3.5m. in fierce bidding the first night. Sotheby's men said they did not know their true identity. "but they are a most interesting pair to be able to spend that amount of money

on furniture in a single night." And in another auction in London yesterday, a gold casket, once the property of the Rt. Hon. Arthur James Balfour, first Earl Balfour, was due to go under the hammer at Christies. Balfour, whose name is connected with the Balfour Declaration, was given the box on his election to the Goldsmiths Company in 1899. It was expected to fetch between £1,500 and £2,500.

Rumania to keep trade ties in West

Jerusalem Post Reporter TEL AVIV. - Rumania is expected to reiterate its policy of trading with both the eastern block, the western world, and all other countries during the meeting this week of the Council for Mutual Economic Assistance (CMEA) this week in Moscow, it was learned here yesterday.

Rumania is the only country in the eastern bloc which maintains diplomatic relations with Igrael, and a Rumanian trade mission is scheduled to arrive here during the middle of July to discuss expanding the present trade agreement between Rumania and Israel.

CMEA was set up 30 years ago with six founding members, the

Soviet Union, Bulgaria, Czechoslovakia, Hungary, Poland and Rumania. Other countries, such as Finland, Iraq and Mexico, collaborate in some fields..

The latest issue of "Lumea," Rumania's foreign policy weekly, states that in preparation for the CMEA talks in Moscow, Rumania wishes to make its position clear. This position is that "in the spirit of peaceful coexistence, Rumania promotes cooperative relations with all the countries in the world, whatever their social system on the basis of full equality in rights, observance of national independence and sovereignty, noninterference in internal affairs," and so on.

International body would ban cross-border strikebreakers

Washington Post News Service PARIS. — Three years after writing a set of guidelines for government to deal with multi-national corporations, the Organization for Economic Cooperation and Development (OECD) added just one substantive amendment last week and renewed the guidelines for five more

The ministerial council of the OECD reacted to complaints by trade unions by warning the big on porations against moving workers from one installation to another dur-

ing periods of labour negotiations.

Although the guidelines have in legal force, they have collected "great moral weight" since they were first issued in 1976, said Wedge Dewitz of West Germany, chairman of the OECD committee on international enterprises.

The worldwide distribution of the guidelines by the 24 members of OECD, which includes the world's major non-Communist nations, "has reduced potential tensions" between governments and the big companies Dewitz added.

"The policy of a multi-nation enterprise is by definition border, crossing while the countries goals are national goals," he said. "This produces tensions."

The OECD guidelines include a general outline for acceptable behaviour by multi-national corporations and for proper policies by individual governments that must

deal with the companies. Admitting that the language of the guidelines is vague and general, Dewitz asserted that "their credibil. ty depends on their practical

applicability.' In addition to approving the change in a section dealing with employees' rights, the OECD council also authorized its committee to hold regular consultations with governments, representatives of corporations and workers spokesmen in order to clarify

language in the guidelines. The one substantive change in the text of the guidelines follows suggestions made by a committee representing international trade in ions. The committee had received a complaint from workers at the Hertz Rent-A-Car franchise in Denmark During a strike, the workers complained that Hertz management

tried to import workers from Great Britain to operate the business." The OECD does not take up individual company cases, leaving any enforcement to its member

At the council meeting, however, the ministers urged companies to publish statements of their adherence to the rules

EXPRESSION OF REGRET AND PUBLIC STATEMENT

We are deeply grieved by the tragic death of Mrs. Tamar Haliba, as a result of the explosion of a family size bottle of aerated lemonade, and offer condolences to the bereaved family.

The circumstances of the accident, which occurred in the lobby of her apartment building, are still being investigated.

Accidents involving bottles of this type occur with the bottles of all soft drink producers in Israel,* all the bottles being manufactured by the same company — Tempo Combined Enterprise Yeroham Ltd. All the bottles meet the requirements of the Israel standard.(

The explosion of bottles is not confined to Israel — it happens in all countries. In 1977, more than 155,000 people in the U.S.A. were injured by exploding bottles — a national average higher than that applying in Israel. Investigation of these accidents in Israel and abroad has shown that a considerable number are caused by the person concerned mishandling the glass bottle. As the largest manufacturer of family size bottles in Israel, we are very aware of this problem, and are just as concerned as the public. In fact, we have sought a solution to this problem for the last 3 years, and have spared neither means nor effort in this connection.

We have also looked for a solution to the problem abroad, and found that, in Japan, a revolutionary process has recently been developed for the application of a protective coating to glass bottles. Following this development, the Japanese government introduced legislation forbidding the sale of family size bottles

without the protective coating. We would welcome such a law in Israel, and will be the first to comply with it. We will also be willing to make available the knowledge we have acquired to other plants.

This revolutionary process is used to cover glass bottles with a protective plastic coating, and this prevents the scattering of glass splinters if a bottle breaks, thus protecting members of the public from injury.

Tempo has acquired the necessary know-how, and has erected a special plant to coat bottles, in order to protect the public. IL40m. has been invested in this plant. The plant has already been run in, and is now working 3 shifts a day and producing its maximum output. Beverages are already being sold in these coated bottles. We are now making every effort to replace the regular bottles with coated ones, in the shortest possible time.

Tempo Management

* A survey published in "Ma Kedai," the journal of the Israel Consumers' Council, records bottle explosions involved 31 Tempo bottles, 12 Crystal bottles, 7 Coca-Cola bottles and 4 Schweppes bottles. Tempo has 60-70% of the market, and the correspondingly high number of exploding Tempo bottles is therefore

Stocks mixed, bonds down in heavy trading

TEL AVIV. - The share market took a breather as prices turned mixed yesterday. However, turnovers rose markedly as IL204m, was traced in shares and IL75m. in the bond market.

Index-linked bonds continued to be soft as prices moved lower by as much as 1 per cent. The public appears to be somewhat confused about interpretations of what the recently introduced price freeze will mean to the economy. The government has taken the position that the price freeze is antiinflationary, while the Bank of Israel has predicted that the move will only result in even greater inflation

The cost of freezing prices of basic foodstuffs has been initially estimated at IL7b. Should all or part of this sum, which will be paid to growers, reach the consumer level it will cause prices to go higher, according to the governor of the Bank of Israel. The commercial bank sector was not affected by the generally mixed pattern and prices continued to rise. Leumi was up by

in militie t IDB was moved up by three. Union Bank rose by eight and Hapoalim by two. General Bank edged higher by one point.

Stock exchange showed decline in real terms

By JOSEPH MORGENSTERN Jerusalem Post Finance Reporter TEL AVIV. - Dr. Meir Heth, chairman of the board of the Tel Aviv Stock Exchange, yesterday pointed out that though there was a large nominal rise in trading activity in 1978, in real terms there was actually a decline.

This was explained by the record activity and rises in prices in 1977, which was followed by the stock market break of December of that year, he told the board's annual meeting.

"We have definitely learned in 1978 that as the market is active and prices are rising more new issues are brought to the market and the reverse is also true." He favoured spreading new issues over an extended period rather than having them come to the market one after

As a result of the above trend 15 new companies had their shares registered for the first time on the exchange in 1978. The shares registered for the first time on the exchange in 1978. The previous year only four new companies were listed. Two new members were also

accepted by the exchange to join the existing representatives on the floor. In the near inture trading will be expanded to a third hall and it will speed up transactions and the administration connected with the trading. The present stock exchange will be moved to its new quarters on Rehov Ahad Ha'am by the end of 1981, according to the chairman.

Dr. Heth conceded that in the area of communications the exchange continues to lag. "If we could install terminals to the banks and brokers we could then institute continuous

"The delays involved are connected with the inability to get the necessary equipment delivered to the users," he explained. The recent instability in market behaviour was explained by him as resulting from the high inflationary pressures and the uncertainties in the level of the consumer-price index, from month

to month. Dr. Heth is hopeful that as a result of the linking of development loans more and more companies will turn to the exchange to meet their finan-cial needs. "It should also result in more rational and selective new investments," he elaborated.

By SHLOMO MAOZ

Robert Hecht of Houston, Texas. has withdrawn his appeal to the High Court of Justice against sale of ment shares in the Maritime Bank to the Shaul Eisenberg group.

The suit was cancelled on Friday, and the case was then closed. Finance Minister Simha Ehrlich has already renewed his request to the Knesset Finance Committee to approve the sale to Eisenberg, and a decision wil probably be taken this

In a long document submitted to the court, Government Corporations Authority director Ephraim Yermans explained the state's preference of the Eisenberg group over Hecht in the bank sale. He asserted that Hecht's representative

who had approached the govern-ment had not revealed whom he represented, despite the government's demand. When he finally did identify himself, Yer-mans wrote, Hecht still failed to reveal who else stood behind his bid.

Yermans also wrote that at a critical stage, Hecht's bid was made in Israel pounds, unlinked, making it inadvisable to negotiate with his offer, compared to all the other ones submitted. Nor had Hecht and his group demonstrated their ability to run a bank and contribute to the economy, said Yermans, and he had submitted no bank references.

The \$11.55m. figure quoted by Hecht was mentioned only after the decision to sell to Eisenberg had already been made, Yermans ex-

New firm to sell sodamaker

By AARON SITTNER Jerusalem Post Reporter

A new firm on the local scene — Sodastream Ltd. of Jerusalem will spend approximately ILim, in the coming 12 months to advertise and promote sales for its sole product, the Sodastream home beverage maker.

The IL1,850 "package", to be retailed by franchise shops, was shown to reporters and retailers at a demonstration last week. Heart of the drink-maker set is a plastic coated metal carbonator which converts ordinary cooled water into a

The soda can then be flavoured with syrup or squash and Sodastream's own syrups will be pushed hard as a "natural partner" for the soda-maker. Unlike the machine, which is British-made, the syrups are manufactured locally, at Kiryat Bialik. So far, 10 flavours are available. The gas cylinder accompanying

the machine suffices for 100 to 150 bottles of beverage, and gas refills are now priced at IL36. Besides the carbonating machine and gas cylinder, the set includes two pumps for the 700 ml. bottles of Sodastream syrup, six beverage bottles and six caps for them.

Exploiting the Chief of Staff

PRIME MINISTER Begin has been reported to be consulting with the Attorney General on the guidelines to be forwarded to the Chief of Staff in the preparation of his deposition to the High Court of Justice in the Eilon Moreh case. The temporary injunction issued by the court halting work at that Gush Emunim settlement outside of Nablus is to be followed by a "show-case" hearing at which the government will explain its case.

The government is certainly entitled to try to put the best face it can muster on its settlement policy and the security rationale it has adduced in its support. But there is a danger in involving the army and the Chief of Staff so deeply in what is a hotly contested political issue.

By consultation with Rav Aluf Eitan on what Mr. Begin would like him to say and in the exact words that would prove most efficacious for the government's case, the public's trust in the credibility of the army's high command is in danger of ero-

It is no secret that Rav Aluf Eltan truly believes that all the territories should be retained by Israel permanently for security reasons. Arguing for the seizure of the Arab lands at Rujeib falls in easily with such a point of view.

The military has not been asked for its professional opinion on the autonomy plan, as it was not asked regarding Mr. Begin's decision at Camp David to cede the Rafia Salient, the Sharm es-Sheikh naval base and the military airfields in Sinai to Egypt as part of the peace treaty.

The security aspects of Israel's policies in the territories are undeniably among the thorniest issues to confront Israel today. They should be fully debated by the politicians, the press and public opinion, taking into account the various opinions of military experts. But it would be healthier for Israel's body politic and for the army, if military men on active service were not pushed into open participation in that debate.

Politics vs the law

LABOUR governments, beginning with David Ben-Gurion and ending with Yitzhak Rabin, consciously flouted the Military Conscription Law for 24 years by failing to implement the clause calling for alternative national service for women who opt out of military service on religious grounds.

The Begin government continued this failure to carry out the dictates of the law, under pressure, as in the past, from Agudat

But several months ago, a former Likud MK, Yedidya Be'eri, a father of two army age daughters, applied to the High Court for an injunction against the government to show cause why it should not end discrimination against his daughters by implementing the law in full.

The court issued the injunction and the Attorney General was compelled to promise that the government would come up with a solution within four months.

Mr. Begin and the cabinet have now proposed that "solution." Its genius-like simplicity raises the question why Labour ministers never thought of it in their 24 years of wrestling with their consciences and Aguda pressures. Quite simple. The government is proposing an american to the law stipulating that the clause on alternative national service will be put into effect only in the wake of a specific cabinet decision.

Would it be naive to add that no timetable is given for that 'specific cabinet decision?"

The record of the Begin government's submission to Agudat Yisrael on a long list of issues has removed any element of surprise from its latest action. What continues to astonish, nowever, is that these acts come from a party — Herut — that has always prided itself on being second to none in its adoration and awe at anything connected with the Israel Defence Forces.

Over half of Israel's young women do not serve in the army, or in any alternative national service. Many of these are draft dodgers, whose cheating and lying has been legitimized by Mr. Begin's coalition agreement with the Aguda.

The pragmatists in the General Staff, including today's Minister of Defence, Mr. Weizman, have always excused the situation with the argument that the army does not really need all the 18-year-old women. That is true, but the country's understaffed hospitals, schools, kindergartens and community centres, where alternative national service was supposed to be carried out, are crying out for additional people.

The pragmatists and cynics should not be surprised if these latest legalistic shenanigans drive more of Israel's best and most devoted young women into anti-conscription actions until this shame is wiped out.

Ban the bottles

PEOPLE HAVE been injured before - some blinded - by exriceling bottles of soft drinks. Now the life of a young mother of timee has been sacrificed to the Moloch of cheap, backward technology.

in Israel, the bottles are returnable, to save on cost. The i-mail Standards Institute says it is helpless, because reusable bufflies can be knocked about in transit so that the glass raighally tempered to adequate tolerances - may be weakened microscopic cracks so that it can no longer contain the assure of the gasified liquids.

is: t this is a hollow argument. Technology has found an miswer to more difficult problems than this one. There are safeby cases that give long before the bottle itself can be blown to places, and bottles can be coated so that flying glass fragments ate contained.

If there is a danger in the bottles now in use, it must be asked why their distribution is still permitted?

it is not only the producers who are responsible. The death of Pamar Haliba points up the inattention, by the authorities, to hazards and environmental dangers in a wide area. The latest tragic accident should, at least, jolt them into taking action. There should be a ban on the marketing of unsafe bottles until thorough tests prove that the dangers have been complete-

Getting ready for a showdown

ALLEN E. SHAPIRO analyses the merger between the Labour-affiliated kibbutz movements in terms of its political repercussions.

POLITICS is what the new kibbutz merger is all about. The immediate aim is to add muscle to the Labour Party, as the time approaches for a show-down over its leadership.

The kibbuts movement has more power within Labour now that the party is in opposition than it did when it was in power. The unitary structure of Israeli government means that when a party is not part of the governing coalition, it has to fall back primarily on nongovernmental power bases. With the exception of the municipalities, there is no other place to go. For Labour, this means the Histadrut and the labour-oriented settlement

The kibbuts brings to politics the advantages of material resources and dedicated manpower, both of which can be mobilized for party purposes. The major result of the new kibbutz merger will be to improve the organization behind the

It is in the field of organization that the only major internal kibbutz change has occurred as a result of the merger, and then only in the old Mapai-oriented Ihud Hakvutzot Vehakibbutzim. This is in the direction of a clear declaration of identification with the Labour Party. to which, in the language of the Ihud's new statement of principles, "the decisive majority of members of the movement belong and which is the primary vehicle of the Labour Movement's mission." The new platform provides that in party matters "the party forum will decide together with a suitable movement institution."

This puts an end to the distinction for the Thud between political party issues and kibbutz movement questions, which was a major product of the solit in the kibbutz movement in the early 1950's, out of which the Ikud was born. In this, the Thud reacted differently from the Kibbutz Meuhad to the trauma of the

For the Kibbutz Hameuhad, "never again" meant a flat ban within the kibbutz on factional organization that might develop into a new break-away movement. For the Ihud, it meant isolating political from movement activity, through autonomous organizational channels, thus neutralizing the consequences of political differences on movement

The Inud formula survived the test of the Lavon Affair. Lavon's Minhayesod group broke with Mapai, but remained within the

READERS' LETTERS ■

porters, organized in Rafi, which returned to the party fold only after the Six Day War and the creation of the Labour Party. The most recent strain on Ihud unity, Yadin's Democratic Movement for Change, achieved wide support in kibbutzim of the Ihud without causing splits either in the kibbutzim or in the

But this neutralizing of politics means to present Ihud leadership a neutralizing, even a sterilizing, of power as well, and they are out to mobilize as much as they can. Therefore, they are prepared to take a calculated risk.

Essentially, they are gambling on the basis of a conviction that political splits within the labour camp are a thing of the past and that the movement can take the added heat of internal political confroversy without melting at the ideological

THEY MAY NOT have long to wait before that conviction meets its first test. The issue — the kibbutz leadership's strong line on the Golan

Heights.
The Kibbutz Hameuhad, unencumbered by the inconvenience of serious factional dissent, has come out for virtual annexation. The Ihud, at its recent convention, held back a bit, but not much, out of consideration for internal opposition that ranges from supporters of territorial compromise on all fronts, including the Golan, to Peace Now activists, who are likely to find political life in the new united movement increasingly uncomfortable.

A foretaste was provided even before the new merger. After Camp David, a joint meeting was called of the Ihud's Mercaz, a kibbutz movement institution, and of the Ihud's Labour Party Council, an out-andout party Forum. The purpose - to determine the vote of thud Knesset members on the ratification of the agreements and the withdrawal from the Sinai settlements.

This mixing of movement and partv institutions brought a wave of protest. Non-party members of Ihud kibbutzim were being reduced to second-class citizens. Ihud Secretary-General Mussa Harif apologized, asserting that the pressure of time prevented the convening of separate assemblies.

But the real pressure came then, and will come in the immediate future as well, from the logic of events. The major political issue of our time is also an issue that goes to the heart of the kibbutz movement the question of settlements. Party

standard of living.

Mr. Maos declares: "On the per-

sonal level, buy whatever you need.

Tomorrow the price will be higher," and he adds: "Run out and buy some

durable goods. How about a colour

TV set?" In the short run, this may

make some sort of spurious (but selfish) sense; in the long term, it is

sheer madness. Increased consumer

spending of the kind which Mr. Maoz

advocates will give a further hoist to

inflation, increase Israel's already

alarming trade deficit, and defeat the admirable efforts of Israel's

planners, manufacturers and

gap by increasing exports.
One could pick out, or pick on,

plenty of other fallacies in Mr.

Maoz's article. May we mention just

one? He seems to have no understan-

ding whatever of the appalling psy-chological dangers of inflation. Of

course, one can "live" with it; equal-

salesmen to close the external trade

be kept in separate compartments, it is argued, when history has forced them to combine.

It is this combination that makes the Golan Heights a convenient issue on which to push the kibbutz leadership's campaign within the Labour Party. It is also an appealing issue in hidding for popular support beyond Labour's ranks. It reaches a constituency generally unsympathetic to the kibbutz and all it traditionally stands for.

THE PUBLIC image of the kibbutz is very much on the minds of movement leaders. Inevitably, a raised political profile on the national scene will provoke a response. As election time draws nearer, it seems reasonable to anticipate Likudsponsored state intervention to curb kibbuts political activity, such as the volunteering of kibbutz personnel or resources for party purposes. The issue surfaced briefly at the tail-endof the municipal elections campaign and resulted in an inconclusive stand-off in the courts. A tightening of legal restrictions, perhaps through amendment of existing par-ty campaign financing legislation, could bring the issue to a head.

Similarly, there might be a demand for increased supervision of the economic activities of the kibbutz sector, if the climate of public opinion was prepared to accept it. The only hint in this direction, the Finance Ministry committee that examined how the kibbutzim pay their taxes, misfired from the Likud's point of view and resulted in a clean bill of health for the kibbutzim.

But suppose that in the at-mosphere of approaching elections, there were charges that mutual aid funds of the kibbutz movement were serving as funnels for the mobilization of political funds. It could justify, at the very least, supervision by an appropriate public body, such as the Bank of Israel's Conptroller of Banks, for example, over kibbutz financial Institutions... The hands-off treatment of the kib-

 butz economic sector may be due for a change in any case. This may be one consequence of the rise of Herut populism, personified by Housing Minister David Levy. It was in Levy's Beit-Shean that Likud leaders reportedly shepherded bus-loads of development-town voters around the regional enterprises of the cooperative settlements, promis-ing that after the Histadrut elections they would be divided among the

The more the new united kibbutz movement succeeds in translating politics and movement issues cannot its economic strength into political

INFLATION IN ISRAEL

A STATE FOR THE PALESTINIANS? To the Editor of The Jerusalem Post To the Editor of The Jerusalem Post

Sir, - The constant drumbeat by the Palestinians for their "legitimate rights" makes me furious. First off, they never spell out what they mean by that term. If anyone has ever denied them their "legitimate rights," the guilty party is not Israel, but the Arab world itself. It was the Arab Higher Committee which orchestrated their refusal to accept the UN's Partition Resolution of November 29, 1947, which would have given them a state of their own. The Palestinian cry for statehood was muted when the Jordanians ruled over them on the West Bank and when the Egyptians ruled Gaza with an iron hand. For 19 years, the Arab "brothers," the Jordanians, held sway over the Palestinians and during that time

'legitimate rights.'' The question arises in my mind: do the Palestinians, given their record of the past 31 years, deserve statehood? They merely mouth such phrases as "self-determination," or "legitimate" rights," or "human rights," all of which are covers for organizations whose only purpose is the extermination of Israel and her people. Let those who don't believe the Arabs are capable of genocide remember there were people who never could believe such "cultured" people as the Germans were capable

there was no mention of their

of genocide. We know better today. The Palestinians have helped to fasten upon the Iranian people the despotism of the Ayatolia Khomeini. They have aided the self-confessed disciple of Hitler, Idi Amin, in his cruel administration of murder. They ignore the pleas of the Kurds for autonomy. They fight against the Lebanese Christians who granted them asylum from the onslaught of King Hussein. They engage in a cowardly war against civilians including women and children.

A state for the Palestinlans? Let Jordan or Syria give them one. Of all those who clamour for a state of their own, the Falestinians are the least deserving.

IRVING SCHECHTMAN West Palm Beach, Florida.

OPPOSITION PROMISES

To the Editor of The Jerusalem Post Sir, - After reading Harry Hurwitz's words of praise for Canada's decision to move its embassy to Jerusalem as a "rare and refreshing development" (June 10),

it occurred to me that we could look

closer to home for instances of honesty - or the lack thereof. It is certainly true, Mr. Hurwitz, that there are but few occasions when "a party in office actually stands by promises made while it was in Opposition." Two items come to mind concerning the Likud party platform and the resolutions of its main component, Herut. The first,

ly, one can die of it. Inflation, in this

country, is undermining ability or Sir, - We found ourselves rubbing volition to plan for the future and live for the future. We suspect that the our eyes in amazement over Shlomo Maoz's article of May 31. For some same thing may be happening in of his statements were truly starti-Israel - although more on a ing. Thus "Fixed inflation is a good governmental than a personal level, thing. It means full employment, since index-linked wages appear to protect the individual and, incidenbuilt-in economic growth, and a rising standard of living." Well, Britain tally, give a further hike to inhas had something very close indeed to fixed inflation, around the nine per We have just, as it happens, taken cent mark for well over a year, and there is considerable unemployment, next to no economic growth and a static or possibly declining

over the editorship of "Anglo-Israel Trade," the journal of the Anglo-Israel Chamber of Commerce in London. A primary purpose is to help Israel to export more and start closing its trade gap — and we invite Israeli firms and businessmen to give us information about what they are doing in this direction. An article like that written by Mr. Maoz is going to make our task much, much harder — for we believe that infla-tion could be as dangerous an enemy to Israel as are Arab tanks and bullets, and in the long run more in-THE HON. TERENCE PRITTIE

Prittie and Nelson

Shlamo Maos comments: I am somewhat surprised that the Hon. Terence Prittle did not realize that my article in part was meant as an ironic comment on Israel's economic situation. But perhaps, read at a distance, a piece written in the context of an ongoing discussion in Israel may have looked different.

MEAGRE PENSIONS

To the Editor of The Jerusalem Post Sir. - I have read Joshua Brilliant's article, "200,000 get-new pension plan" (June 5). If I have calculated correctly, "... a month's wages for every year they worked" means that, after 30 years' work, a man gets 30 months' salary — i.e. less than 3 years (plus premiums earned). This hardly seems a fair recompense for 30 years' work.

This seems to be in line with the grudging benefits accorded by the Histadru: to subscribers to its Mivtahim fund. The widow of a pensioner receives 42 per cent of his salary (60 per cent of the 70 per cent which he received); the widow of a

that the border between Egypt and Israel would be located within the Sinai (and would not be the old 1906 international boundary) and second. that the proposed autonomy for Arabs would be restricted to cultural, educational and religious affairs (and not some administrative council with its own security force).

The foregoing perhaps proves the adage that it is surely worthwhile to put one's own house in order first. What is worthy in Canada's actions cannot be ignored by Mr. Begin's

BETH SPIEGELMAN

working man receives 40 per cent. If calculated on a salary of IL10,000 (which does not reflect the true salary, because many benefits are

not included), a widow receives IIA,-

000. After 35 or more years of payments into a pension fund, this is a meagre allocation and is much less

than other pension funds give. These facts are not known to the majority of Histadrut employees and it seems to me that they should be more widely publicized.

FREDA BERMAN

LEADERSHIP

To the Editor of The Jerusalem Post

Sir. — I have just read your editorisi of May 31, "U.S. policy discrepancy." If you people have a hard time comprehending Mr. Carter's statements because they are contradictory, try it on a daily basis on every subject. The people in the United States are so confused by this man they don't know what he is do-

In point of fact, we have become a ioke in the world because of our lack of wisdom in picking leaders. Too bad we cannot have a Begin here. You are fortunate to have the leaders you have. At least they have the guts to take a stand. We could use that in the United States.

MARY JANE WARD

Bonifay, Florida.

Dry Bones

punch, the more likely the application of countervailing power. The more effective kibbutz political activity, the harder it is likely to be hit. The kibbutz leadership's expectation of political attack - itself a major motive behind the new merger may, therefore, prove to be a self-

fulfilling prophecy.

But the immediate political payoffs of the kibbutz merger will be in terms of power within Labour Party councils. Assuming a Peres-Rabin standoff, there will be a chance for the kibbutz movement to make its weight felt in the choice of personalities, including the one at the top. He would almost certainly have

movement. It is not beyond the realm of reason that he would emerge from its ranks.

Mussa Harif, the young thus Secretary-General, projects a Kennedy-type image, with plenty of political sex appeal. He is untained as is the verteran leadership of the Kibbutz Hameuhad, by past far tional controversies. There are those who have looked Mussa Hari straight in the eye and claim to have discerned a tell-tale glint.

The author is a member of Kibbub Degania Aleph and has lectured on political science at Haifa University
